

Frank E. Wilber Company

Frank E. Wilber Company

StitchFold stitcher bookletmaker and optional trimmer

patented, ISP wire-fed stitching system provides lower operating costs than bookletmakers using pre-formed staples

produces booklets up to 100* pages

low maintenance—jogs, stitches, and folds up to 65,000 booklets without replacing wire spools

runs on-line with a variety of collators (interface is included) including the MBM FC 10 (page 19)

easy-to-use, push-button controls with 6 digit counter

knife fold with dual fold rollers for crisp, consistent folds

moveable stitching heads

powered exit conveyor

transparent safety access covers—machine will not operate with covers in open position

includes back jog and stand with casters

options include an activated clinch and an in-line corner/side stitch gate

Optional trimmer

operates in-line with StitchFold bookletmaker

trims booklets up to 100 pages*

powered exit conveyor

transparent safety access cover—machine will
