DBM 120/120T

The automatic setting DBM-120 Bookletmaker produces up to 2,400 professional booklets per hour. The option DBM-120T Trimmer is designed to be used in-line with the DBM-120 and precisely face trims booklets up to 96 pages.

The DBM-120 can be used either as a stand-alone bookletmaker or in-line with a Duplo collator. The addition of the DFC-12/24 friction-feed collator, DC-8/32 suction-feed collator, or DC-10/60 suction-feed collator can increase profits by providing a complete finishing system. The DBM-120 includes five staple head positions for maximum flexibility in automatic saddle, side, or corner stapling. The DBM-120's clinched-style staples have a unique flat underside for a stronger, tighter bind.

The DBM-120 is designed for simple set-up and foolproof operation. With the most common applications pre-programmed, bookletmaking is accessed at the touch of a button. As the side guides, head stops, staple/fold position stoppers, and machine automatically move to the correct positions, the operator is able to change from one job to the next in mere seconds. Even the optional in-line face trimmer automatically adjusts itself for pre-programmed paper sizes.

Specifications:

Paper Sizes 8" x 8" to 12.5" x 18" (booklet and fold only applications)

Corner/Side Stapling Paper Size 8" x 8" to 8.5" x 11"
