Widmer Model RS Laser Check Signer

Digital programming of document size for highest possible accuracy.

Operator can program up to 9 different jobs.

Remembers last program used even after stopping.

User friendly display guides user through process.

Adjustable guides allow imprint to be set anywhere within a 15-1/2" x 16" area.

Imprints over 180 pieces per minute.

Sizes may range from 2-7/8" x 2-7/8" to 12-1/2 x 14".

An adjustable stripper knob eliminates the feeding of more than one document at time.

A non-resettable audit counter records all imprinting. A separate batch control counter counts up, cumulates, and also counts down.

Print head can be turned off for a "count only" function.

Tamper proof, double key security prevents unauthorized usage or removing of plates and drums.

An unlimited number of drum and plates selections can be used to meet specific needs.

Snap out signature plates are easily and quickly interchangeable. These plates provide long-lasting performance and high-quality impressions.

Comes with standard black ink cartridge. Red and tri-color cartridge available.
