MBM 10 Business Card Cutter

BC 10 Business Card Cutter

- * eliminates costly outsourcing of business card production—cards can be printed on a laser printer or copier and trimmed in-house
- * cuts 10 standard size business cards per page
- * quick and easy set-up and adjustment
- * control panel includes LED 4 digit counter with addition and preset subtraction functions
- * self-sharpening blades
- * compact design and quiet operation make it ideal for corporate environments
- * self-correcting cut lines ensure accurate cuts every time
- * safety access cover—machine will not operate with cover in open position
- * optional perforator, and scorer
