660P Duplo Hydraulic Cutter

660P Hydraulic Cutter

With its rugged construction, solid cast-iron frame, and powerful hydraulics, the 660P cutter is designed to meet rigorous workflow demands.

Offering dependable, precision paper trimming, Duplo's 660P cutter is constructed of solid cast-iron and powerful hydraulics for long-lasting performance. Accuracy and ease-of-use are ensured by special features such as an eye-level readout that shows paper position in inches or millimeters on a large digital display. Additional features include an illuminated optical cutting line; a foot-powered clamp for cutting difficult stock; false clamp plates to protect super-sensitive stock; and a special "anti-friction surface" that allows trouble-free handling of all types of paper stocks. The 660P accommodates cuts 26.5" wide and paper heights up to 3.93". This model offers a standard computerized cutter automation system that stores up to 72 cut locations with nine job selections for maximum productivity.

Features include:

- * Hydraulic powered, rugged construction
- * State-of-the-art technology for ultimate automation
- * Stands up to rigorous workflow demands
- * Standard light emitting & receiving safety sensors

CUTTING LENGTH & WIDTH

26.50"

MAXIMUM PAPER PILE

3.93"

MINIMUM CUT SIZE

2.40" with false clamp

0.78" without false clamp

CLAMP PRESSURE

300 to 2,500 lbs.
